

Aditya Khan

adityakhan@cs.toronto.edu ❖ Toronto, ON ❖ (306) 290 0723 ❖ <https://adk0101.github.io/>

EDUCATION

Columbia University
Ph.D. Student – Statistics

Incoming
New York, NY

University of Toronto – St. George Campus (Trinity College)

Sept. 2021 – Jun. 2026

Hons. BSc – Data Science (Specialist), Statistics (Specialist), Computer Science (Minor)

Toronto, ON

- Cumulative GPA: 3.95/4.00; Enrolled in Arts and Science Internship Program (Co-op).
- Relevant Coursework: Deep Learning, Mathematical Statistics, Stochastic Processes, Sampling and Surveys, Methods for Multivariate Data, Data Science, Real Analysis, Linear Algebra, Multivariable Calculus, Ordinary Differential Equations, Algorithm Design and Analysis, Software Tools and Systems Programming, Intro to Databases.

PUBLICATIONS

Enhancing Mental Health Counseling Support in Bangladesh using Culturally-Grounded Knowledge

*Md Arif Hasan, Azhagu Meena SP, **Aditya Khan**, Abu Md Akteruzzaman Bhuiyan, Helal Uddin Ahmed, Joysree Debi, Farig Sadeque, En-Shiun Annie Lee and Syed Ishtiaque Ahmed.*

CLPsych Workshop 2026 at ACL 2026.

Dynamic Meta-Metrics: Source-Sentence Conditioned Weighting for MT Evaluation

*Luke Zhang, Justin Vasselli, **Aditya Khan**, York Hay Ng, En-Shiun Annie Lee.*

Association for Computational Linguistics (ACL) SRW 2026.

Simple Additions, Substantial Gains: Expanding Scripts, Languages, and Lineage Coverage in URIEL+

*Mason Shipton, York Hay Ng, **Aditya Khan**, Phuong Hanh Hoang, Xiang Lu, A. Seza Doğruöz, En-Shiun Annie Lee.*

Language Resources and Evaluation Conference (LREC) 2026.

Modality Matching Matters: Calibrating Language Distances for Cross-Lingual Transfer in URIEL+⁺

York Hay Ng, **Aditya Khan***, Xiang Lu*, Matteo Salloum, Michael Zhou, Phuong Hanh Hoang, A. Seza Doğruöz, En-Shiun Annie Lee.*

European Chapter of the Association for Computational Linguistics (EACL) SRW 2026 (**Spotlight**).

URIEL+: Enhancing Linguistic Inclusion and Usability in a Typological and Multilingual Knowledge Base⁺

Aditya Khan, Mason Shipton*, David Anugraha, Kaiyao Duan, Phuong Hanh Hoang, Eric Khiu, A. Seza Doğruöz, En-Shiun Annie Lee.*

International Conference on Computational Linguistics (COLING) 2025.

A Faculty Initiative Addressing Gender Disparity at a Small STEM-Focused University: A Case Study⁺

Amane Takeuchi, **Aditya Khan***, Phuong Hanh Hoang*, Jian Yun Zhuang, Randy J. Fortier, Mariana Shimabukuro, Michael Miljanovic, En-Shiun Annie Lee.*

ACM Virtual Global Computing Education Conference (SIGSCE Virtual) 2024.

Toward A Reinforcement-Learning-Based System for Adjusting Medication to Minimize Speech Disfluency

Pavlos Conostas, Vikram Rawal*, Matthew Honorio Oliveira*, Andreas Conostas*, **Aditya Khan***, Kaison Cheung*, Najma Sultani*, Carrie Chen*, Micol Altomare*, Michael Akzam*, Jiacheng Chen*, Vhea He*, Lauren Altomare*, Heraa Muqri*, Asad Khan*, Nimit Amikumar Bhanshali*, Youssef Rachad*, Michael Guerzhoy.*

Machine Learning for Cognitive and Mental Health Workshop (ML4CMH) at AAAI 2024.

* Indicates equal contribution.

⁺ Indicates that I also presented this paper myself at the associated conference.

PRESENTATIONS WITHOUT ARCHIVAL PROCEEDINGS

[T] SIGTYP Workshop at EACL 2026

Mar. 2026

- Modality Matching Matters: Calibrating Language Distances for Cross-Lingual Transfer in Multilingual NLP

[P] Applied Research in Action (ARIA) Showcase 2025

Nov. 2025

- Modality Matching Matters: Calibrating Language Distances for Cross-Lingual Transfer in Multilingual NLP

[T] The Third Joint SIAM/CAIMS Annual Meetings (AN25)

Jul. 2025

- Endemicity and Eradication of Diseases in the Presence of Vaccination and Reinfection in a SEIRV Model

[T] SSC Annual Meeting 2025

May 2025

- Comparing Exact and Approximate Inference for Spatial Autocorrelation Tests: A Power Analysis

[T] Canadian Statistics Student Conference (CSSC) 2025

May 2025

- Crowds, Chaos, and Commutes: Making Inference on the Spatiotemporal Impact of Special Events on Travel Times

[T] Trinity College Undergraduate Research Conference (TCURC) 2025

Mar. 2025

- Endemicity and Eradication of Diseases in the Presence of Vaccination and Reinfection in a SEIRV Model

Key: [P] = Poster, [T] = Oral.

PREPRINTS AND PAPERS UNDER REVIEW

[PP] RESAPLE: An Approximate One-Step Restricted Likelihood Estimator of Spatial Dependence for Exploratory Spatial Analysis

Aditya Khan, Meredith Franklin. Under Review at Spatial Statistics.

[IP] Dynamics of an SEIRV Epidemic Model: Effects of Reinfection

Aditya Khan, Lin Wang, Juxin Liu, Momiao Xiong. Under Review at Journal of Biological Dynamics.

- We build a novel ODE-based disease transmission model and prove a number of theoretical results about it.

Key: [PP] = Preprint on ArXiv (hyperlinked), [IP] = Manuscript drafted and available on request.

* Indicates equal contribution.

WORK EXPERIENCE

ML Research Intern

May 2026 – Present

Vector Institute

- Developing risk control methods for hallucinations in medical LLMs, with auditable statistical guarantees.

Transportation Data Analyst

Sept. 2024 – Aug. 2025

City of Toronto

- Statistical consulting, building spatiotemporal models, and developing imputation strategies for data on networks.

RESEARCH EXPERIENCE

Research Assistant (Nonparametric Uncertainty Quantification)

Jan. 2026 – Present

Advisor: Thibault Randrianarisoa (University of Toronto)

- Studying adaptive, honest confidence sets for Sobolev regular densities in the presence of local differential privacy.

Research Student (Applied and Spatial Statistics)

Sept. 2025 – Present

Advisor: Meredith Franklin (University of Toronto)

- Studying robust alternatives to Moran's I, amongst other applied projects in transportation data analysis.

Research Student (Forecasting with ML)

Sept. 2025 – Present

Advisor: Anna Goldenberg (University of Toronto, Vector Institute)

- Comparing forecasting methods for ordering lab tests for ICU patients, in the presence of distribution shifts.

Research Assistant (NLP and CS Education)

May 2024 – Present

Advisor: En-Shiun Annie Lee (University of Toronto)

- Led multiple teams of undergraduate students towards publishing research papers on CS education and NLP.

Research Assistant (SMC and Posterior Inference on LLMs)**May 2024 – Dec. 2024***Advisor: Roger Grosse (University of Toronto, Vector Institute)*

- Developing connections between sequential Monte Carlo algorithms for LLMs, and speculative decoding.

Research Assistant (Mathematical Biology)**May 2023 – Aug. 2024***Advisors: Juxin Liu and Lin Wang (work done at University of Saskatchewan)*

- Proving theoretical results about a novel disease-transmission model and verifying with simulations in Python.

Research Assistant (Reinforcement Learning)**July 2023 – Sept. 2023***Advisor: Michael Guerzhoy (University of Toronto)*

- Designed an experiment for gathering disfluency ratings and feeding data into an RL system to learn optimal strategies to minimise speech disfluencies.

Research Assistant (Data Visualisation)**May 2023 – Aug. 2023***Advisor: Carolina Nobre (University of Toronto)*

- Worked on developing data visualisation techniques for time-evolving networks, using flight data as a case study.

TEACHING EXPERIENCE**Teaching Assistant****Sept. 2023 – May 2026***University of Toronto*

- TA for MAT246H1: Concepts in Abstract Mathematics (Fall 2023, Winter 2024, Fall 2025, Winter 2026)
- TA for MAT223H1: Linear Algebra I (Fall 2024, Winter 2025)
- TA for STA130H1: An Introduction to Statistical Reasoning and Data Science (Winter 2026)
- Combination of preparing and teaching tutorials, grading assignments and tests, and holding office hours.

AWARDS & ACHIEVEMENTS

- **Computer Science Engagement Award (2025)**

Awarded by the Department of Computer Science. Recognises students who connect and apply their CS knowledge or skills in creative and innovative ways. Awarded for my paper presented at SIGSCE Virtual.

- **NSERC Undergraduate Student Research Award (2024)**

Awarded by the University of Saskatchewan for a project on mathematical modelling of disease spread with differential equation models.

- **Dean's List Scholar (2022, 2023, 2024)**

Awarded to students under the Faculty of Arts and Science at the University of Toronto who have a cumulative GPA of at least 3.50, after completing five credits.

- **Samuel Beatty Scholarship (2023)**

Awarded to students studying Computer Science, Mathematics, Statistics, or Physics at the University of Toronto based on academic performance during the previous year or financial need.

- **Chancellor's Scholarship (2022)**

Awarded for high academic achievement in the 2021-2022 academic year by Trinity College, University of Toronto.

- **University of Toronto Scholars Award (2021)**

Awarded to outstanding secondary school applicants to the University of Toronto, on the basis of their mark average at the time of admission.

- **Competitive Debate Achievements**

2-time provincial representative at national tournaments; 7-time medallist in civic/provincial tournaments.

GRANTS

- **CSSC Travel Award (2025)**

Awarded to select participants at CSSC 2025 to travel to Saskatoon, SK to present their work.

- **Trinity College Experiential Fund (2025)**

Awarded to students at Trinity College, University of Toronto to support experiential learning opportunities.

- **Department of Computer Science Academic Travel Grant (2025)**

Awarded to students under the Department of Computer Science to attend a conference, prioritising students whose

research projects contribute to equity, diversity, inclusion, and belonging in computer science.

- **Arts and Sciences Student Union Travel Grant (2025)**

Awarded to full-time students at the University of Toronto who are presenting their work at a conference.

ACADEMIC SERVICE

- Associate Editor: *Arbor: The U of T Interdisciplinary Undergraduate Research Journal* (2025-2026, Volume 7)
- Peer Reviewer: *Machine Learning for Health Symposium (ML4H) 2025*, *Language Resources and Evaluation (LREC) 2026*
- Abstract Reviewer: *2025 Innovations in Education Conference*

ACADEMIC COMMUNITY INVOLVEMENT

Conference Volunteer

May 2025

SSC Annual Meeting 2025

- Logistical support for running the conference and supporting conference presenters with their needs.

Birds of a Feather Event on Multilinguality and Language Diversity

Jun. 2024

North American Chapter of the Association for Computational Linguistics (NAACL) 24

- Co-hosted an event at a top CS conference, leading discussion on representation of low-resource languages in NLP.
- Involved 40+ conference attendees, including leading researchers in NLP and computational linguistics.

MEDIA COVERAGE

U of T undergraduate students explore the use of AI to treat speech disfluency

Feb. 2024

By Selah Katona – UofT News

TECHNICAL SKILLS

- Languages: Python (Torch, Pandas, Scikit-Learn, psycopg), R (tidyverse, ggplot2), Java, C, SQL, JavaScript.
- Other: QGIS, Jupyter, Tableau, GitHub, Anaconda, SLURM, Microsoft Excel, Wolfram Mathematica, Latex.
